Don't Purge the Bowels—Do as Nature Does

Nature gets her laxatives from food. If you eat plenty of fruit, coarse food and green vegetables, you would get laxative enough. But you eat fine food, and too much of it. And you exercise too little. So it is vital that you help the bowels in another way. But don't use salts or pill cathartics. Never employ harsh physic. Nature does all things gently. Give her gentle help. Cascarets are vegetable. They have just the same effect as a laxative food. They never gripe, so you know they don't irritate. They act in Nature's way. Yet they are just as effective as violence.

While harsh physic ruins the stomach, Cascarets aid digestion. While harsh physic callouses the bowels, Cascarets restore the natural functions. Every effect is curative. Those who are well informed about laxatives employ only Cascarets.

Cascarets are candy tablets. They are sold by all druggists, but never in bulk. Be sure to get the genuine, with CCC on every tablet. The box is marked like this:
